

FOUNDATION FEST

## THE OFFICIAL OPENING OF GENESIS

Curator Michael Michael Mitchell exercising Dirk and Alexandra de Groen's 1934 BMW 315/1 Sport Roadster early in the morning before the arrival of the guest. Thank you Michael for taking so good care of all these wonderful cars and motorcycles. We are all green with envy.

Above: Rick Meinig and his 1940 BMW 327-80 PS *Kabriolet* which was owned by BMW motorcycle racing champion Schorsch Meier who was also a BMW dealer in Munich and a Master Sergeant in the German army.

Right: This 1930 BMW 3/15 DA2 (2nd "Deutsche Ausführung" or *German Edition*) is based on the Austin Seven which was built as the Dixi under license by the Fahrzeugfabrik Eisenach, a company purchased by BMW in 1928. This may very well be the oldest BMW Automobile in America.

Above: While not every owner was able to attend the opening of Genesis, Dirk and Alexandra made sure that "Fräulein Emma", the 1954 EMW 327/3 belonging to their good friends Rocky and Henry Grady received all the attention she needed.

Right: Gretchen and Lothar Schuettler had a wonderful time at the opening of Genesis, and so did everyone else.

Manny Carter and his 1935 BMW 319 which was converted by Karosseriebauer Ludwig Weinberger into a very handsome 328-style roadster. Manny purchased the roadster in Germany in 1973.
